The Week Ahead in the European Parliament - October 5, 2018

Friday, October 5, 2018

Summary

This past week, the European Parliament held a plenary session in Strasbourg.

On Wednesday October 3, Members of the European Parliament ("MEPs") approved the report prepared by the parliamentary Committee on Environment, Public Health and Food Safety ("ENVI") on the proposal for a Regulation on Health Technology Assessment ("HTA"). HTA is a multidisciplinary assessment process that seeks to evaluate the added therapeutic value of health technologies (i.e., drugs, certain medical devices, medical treatments including surgical procedures, and measures for disease prevention and diagnosis) on the basis of both clinical and non-clinical elements. The proposal aims to overcome a number of problems which, according to the report, cannot be sufficiently addressed without regulation at the EU-level. See the adopted parliamentary report here.

Next week will a be committee week in the European Parliament. A few interesting discussions will take place in committee.

On Monday, the Committee on Industry, Research and Energy ("ITRE") will hold a public hearing on Horizon Europe. More specifically, Horizon Europe consists of a €100 billion research and innovation program that will succeed Horizon 2020. The hearing will focus on the best way to shape Horizon Europe, in order to maximise EU’s competitiveness and social benefits. See the draft program of the hearing here.

On Tuesday, ITRE will debate on the report on a proposal for a Regulation on ENISA, the "EU Cybersecurity Agency" and which repeals Regulation No. 526/2013 establishing the mandate of the Agency for a period of seven years. ENISA aims to ensure a high level of network and information security within the EU. The purpose of the new Regulation is to provide the objectives and tasks of ENISA, and ensure an adequate level of cybersecurity in the EU. See the proposal for a Regulation here.

On Wednesday, ENVI will vote on its report on the proposal for a Single-Use Plastics Directive. The purpose of the proposal is to prevent and reduce the impact of certain plastic products on the environment. More specifically, the new rules target the ten single-use plastic products most often found on Europe’s beaches and seas. Also, the new rules include obligations for producers to help cover the costs of waste management, collection targets and short timeline for achieving reductions in the consumption of some single-use plastic products, including plastic tobacco filter. See the draft report here, the amendments tabled to the draft report here, here, and here, and the proposal for a Directive here.

On the same day, the Civil Liberties, Justice and Home Affairs Committee ("LIBE") will debate on the use of Facebook users’ data by Cambridge Analytica and the impact on data protection, after the Facebook – Cambridge Analytica data scandal that happened earlier this year. In this regard, LIBE will propose ways to better protect EU citizens’ privacy. Furthermore, MEPs are planning to call on national and European data protection authorities to investigate Facebook. See the draft motion for a resolution that will be discussed here.
Meetings and Agenda

Monday, October 8, 2018

Committee on Foreign Affairs
15:00 – 18:30

Debates

In association with the Delegation for relations with Israel (D-IL):

- Exchange of views with Avi DICHTER, Chair of the Foreign Affairs and Defence Committee of the Knesset
