State Of Minnesota Announces Grant Opportunity

Friday, February 15, 2019

[Minnesota's Department of Agriculture has announced the AGRI Biofuel Blending Infrastructure Grant to provide funding for biofuel blending infrastructure equipment.](#) In hopes of promoting economic growth and environmentally friendly practices in Minnesota's biofuels industries, the Grant aims to develop new or enhanced markets that improve blending outcomes, including but not limited to increasing sales and greater access to fuels. The Grant is open to Minnesota-based organizations that are biofuel producers, blending and supplying fuel businesses, and petroleum fuel blenders/distributions. Funds can be used for equipment purchase and its installation or associated costs. The project eligibility requires that the equipment continues to operate until the grant contract expires, the equipment be installed in Minnesota, and that it is compatible with the biofuel-petroleum blends. The amount available (\$650,000 in 2019) allows for various grants to be given, and cannot exceed \$199,000 of grants per applicant. Applications are due no later than **4:00 p.m. (CST) on Friday, April 12, 2019**. For the full request for the proposal, click [here](#).
