New Antidumping and Countervailing Duty Petitions on Quartz Surface Products from India and Turkey

Cambria Company LLC ("petitioner"), on May 8, 2019, filed antidumping (AD) and countervailing duty (CVD) petitions on imports of certain quartz surface products from India and Turkey.

The U.S. AD law imposes special tariffs to counteract imports that are sold in the United States at less than “normal value.” The U.S. CVD law imposes special tariffs to counteract imports that are sold in the United States with the benefit of foreign government subsidies. For AD/CVD duties to be imposed, the U.S. government must determine not only that dumping and/or subsidies are occurring, but also that there is “material injury” (or threat thereof) by reason of the dumped and/or subsidized imports. Importers are liable for any potential AD/CVD duties imposed. In addition, these investigations could impact purchasers by increasing prices and/or decreasing supply of certain quartz surface products.

Scope

Quartz surface products consist of slabs and other surfaces created from a mixture of materials that includes predominately silica (e.g., quartz, quartz powder, cristobalite, glass powder) as well as a resin binder (e.g., an unsaturated polyester). The incorporation of other materials including, but not limited to, pigments, cement, or other additives does not remove the merchandise from the scope of the investigation. However, the scope of the investigation only includes products where the silica content is greater than any other single material, by actual weight. Quartz surface products are typically sold as rectangular slabs with a total surface area of approximately 45 to 60 square feet and a nominal thickness of one, two, or three centimeters. However, the scope of this investigation includes surface products of all other sizes, thicknesses, and shapes. In addition to slabs, the scope of this investigation includes, but is not limited to, other surfaces such as countertops, backsplashes, vanity tops, bar tops, work tops, tabletops, flooring, wall facing, shower surrounds, fireplace surrounds, mantels, and tiles.

Certain quartz surface products are covered by the investigation whether polished or unpolished, cut or uncut, fabricated or not fabricated, cured or uncured, edged or not edged, finished or unfinished, thermoformed or not thermoformed, packaged or unpackaged, and regardless of the type of surface finish. In addition, quartz surface products are covered by the investigation whether or not they are imported attached to, or in conjunction with, non-subject merchandise such as sinks, sink bowls, vanities, cabinets, and furniture. If quartz surface products are imported attached to, or in conjunction with, such non-subject merchandise, only the quartz surface product is covered by the scope.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise fabricated in a third country, including by cutting, polishing, curing, edging, thermoforming, attaching to, or packaging with another product, or any other finishing, packaging, or fabrication that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the quartz surface products.

The scope of the investigation does not cover quarried stone surface products such as granite, marble,
soapstone, or quartzite. Specifically excluded from the scope of the investigations are crushed glass surface products. Crushed glass surface products must meet each of the following criteria to qualify for this exclusion: (1) the crushed glass content is greater than any other single material, by actual weight; (2) there are pieces of crushed glass visible across the surface of the product; (3) at least some of the individual pieces of crushed glass that are visible across the surface are larger than 1 centimeter wide as measured at their widest cross-section (“Glass Pieces”); and (4) the distance between any single Glass Piece and the closest separate Glass Piece does not exceed three inches.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 6810.99.0010. Subject merchandise may also enter under subheadings 6810.11.0010, 6810.11.0070, 6810.19.1200, 6810.19.1400, 6810.19.5000, 6810.91.0000, 6810.99.0080, 6815.99.4070, 2506.10.0010, 2506.10.0050, 2506.20.0010, 2506.20.0080, and 7016.90.10. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

**Alleged Dumping Margins**

The petitioner alleges the following dumping margins:

- India: 344.11 percent
- Turkey: 89.38 percent

**Estimated Schedule of Investigations**

- May 8, 2019 – Petition is filed
- May 28, 2019 – DOC initiates investigation
- May 29, 2019 – ITC staff conference
- June 22, 2019 – Deadline for ITC preliminary injury determinations
- August 1, 2019 – Deadline for DOC preliminary CVD determination, if not postponed
- October 7, 2019 – Deadline for DOC preliminary CVD determination, if fully postponed
- October 15, 2019 – Deadline for DOC preliminary AD determination, if not postponed
- December 4, 2019 – Deadline for DOC preliminary AD determination, if fully postponed
- April 17, 2020 – Deadline for DOC final AD determinations, if both preliminary and final determinations are fully postponed
- June 2, 2020 – Deadline for ITC final injury determinations, assuming fully postponed DOC deadlines
