## Energy Storage Project Development: An Overview Of Key Policy, Finance & Development Issues

Webinar topics will include:

- 1) Key BTM energy storage policy issues (update on the current ITC legislation for energy storage, federal tax & depreciation, utility revenue streams/aggregation, FERC 841)
- 2) Development issues affecting BTM energy storage projects (EPC agreements, interconnection, insurance, common development hurdles)
- 3) Financing & monetizing energy storage projects (capacity service agreements, operating leases, PPA's, shared savings, project financing risks)
- 4) How to configure & model different storage incentives in Energy Toolbase
- 5) How to configure & model different storage financing transactions in Energy Toolbase
