Resolving Inconsistencies In Requirements For De-identification And Anonymization Of Health Data Under CCPA, HIPAA, AND GDPR

For companies seeking to use, license, or otherwise commercialize health data, there are potential inconsistencies among the HIPAA de-identification standard, the CCPA definition of de-identified data, and GDPR requirements for anonymization. Learn practical steps to resolve these inconsistencies and reduce the risk of CCPA and GDPR exposure when commercializing data sets de-identified in accordance with the HIPAA de-identification standard.
