Docqnet is the California Department of Business Oversight's online portal for making securities and franchise filings. The public may also search and access copies of these filings on the portal. This convenient public access will be ending soon, however. Beginning June 26, 2020, the Docqnet portal will be modified so that it only displays search results in an index format only. Search results will no longer be linked to the actual documents. The change is being made to provide equal access to the filings regardless of physical limitations.

Anyone wishing to view a filing, will be required to submit a Public Records Act request through the Department’s website at https://docqnet.dbo.ca.gov/create-pra/.
