ACS GCI Announces Opportunity For Nina McClelland Memorial Award

Friday, December 3, 2021

On November 23, 2021, the American Chemical Society (ACS) Green Chemistry Institute (GCI) announced that it is accepting applications for the Nina McClelland Memorial Award for postdoctoral chemists engaged in green chemistry research. Annually, two awardees will receive a $2,000 sponsorship to participate in and present their research at the annual ACS Green Chemistry & Engineering Conference (GC&E).
The 2022 GC&E will be held in Reston, Virginia, from June 6 to June 8, 2022. Both U.S. and international postdoctoral scholars are eligible to apply for this opportunity. For purposes of this award, ACS GCI characterizes green and sustainable chemistry innovation activities as:

- Elimination and reduction of toxics and pollution;
- Holistic systems design;
- Maximization of resource efficiency; and
- Utilization of life cycle thinking.

Applications must address at least one of these attributes, and nominees are encouraged to address as many of them as possible. The application deadline is December 31, 2021. Additional information on how to apply is available here.
